supporting migrants in East Anglia

KLARS – We've changed our name!

to

ACCESS – supporting migrants in East Anglia

Why have we done that?

If you are reading this you'll know the work that KLARS has always done and the services we offer to support migrants from Eastern Europe and elsewhere, in Kings Lynn, Wisbech and the surrounding area.

But did you ever wonder what KLARS meant? Actually our full name was Kings Lynn Area Resettlement Support.

We decided that really didn't mean very much at all – to our clients, to our stakeholders or to the wider community.

It was time for a change – and after much thought and research we decided on:

ACCESS - supporting migrants in East Anglia

It says exactly what we do – and to go with the change we've brought in a bright new design style for all our leaflets, our website, our Facebook page and all our other communications.

We hope you like it!

One thing hasn't changed – our commitment to helping you and your families get the most from living in the UK.
